### ABOUT ME

Muhammad Hashir Shaikh is a motivated Full-Stack Developer with 1+ year of experience in building modern web applications. Recently completed Intermediate, highly motivated to learn new technologies and stay up to date with market-driven development practices. Passionate about creating efficient, scalable, and user-friendly solutions.

---

Zetsol Technologies Pvt. Ltd. |

April 2025 – Present

### Full-Stack Developer

Working as a full-stack developer since April 2025, gaining hands-on experience in building real-world applications. Transitioned from frontend to backend development using NestJS and expanded frontend expertise with React and Next.js. Actively working on production-level projects, handling both frontend and backend development, including API integration, application logic, and UI implementation. Also contributing to mobile application development using React Native, delivering scalable and maintainable solutions while continuously learning and adapting to modern development practices.

### INTERNSHIP EXPERIENCE

Frontend Developer Intern, Zetsol Technologies Pvt. Ltd.

Jan - March 2025

- 3+ months internship experience working on live projects
- Developed Zetsol's complete official website
- Built landing pages and worked on admin panels
- Hands-on experience with real-world frontend development

### PROJECTS

The projects listed include both fully developed applications and collaborative work, where some projects were built entirely by me while others reflect my contributions to specific features across frontend and backend.
